WRIGHT FUEL CELL GROUP CASE ADVANCED POWER INSTITUTE ERNEST B. YEAGER CENTER FOR ELECTROCHEMICAL SCIENCES

PRESENTS

WORKSHOP ON ELECTROCHEMICAL ENGINEERING

Sponsored by the
Yeager Center for Electrochemical Sciences

Case Western Reserve University
Cleveland, Ohio
May 12–16, 2008

Principal Instructor:
Prof. Uziel Landau

The workshop is intended for scientists and engineers who want to gain fundamental working knowledge of the design and analysis of electrochemical systems.

Topics include:
Transport, Thermodynamics, Overpotentials
Current and Potential Distributions
Design and Analysis and Scale-up.
